

MAMADOU DJIBO

Cybersecurity Engineer | Junior SOC Analyst

301 Quai Aux Fleurs, 91000 Evry-Courcouronnes

Mamadoudjibo22@gmail.com | 0686504391 | [LinkedIn: mamadoud-djibos227](#) | [Portfolio](#)

Junior SOC Analyst specializing in incident detection and log analysis, with experience in SecOps environments and infrastructure security. Highly interested in monitoring, investigation, and security incident response.

EDUCATION

- **2024-2025** : Specialized master's degree in Cybersecurity (CYNU) at INSA Lyon.
- **2022-2024** : Master's Degree in Computer Science, specializing in Networks & Distributed Systems at Paul Sabatier University, Toulouse.
- **2018-2022** : Bachelor's Degree in Computer Science at Paul Sabatier University, Toulouse.

PROFESSIONAL EXPERIENCE

- **SecOps Assistant Intern at TF1, Boulogne, France** **November 2025 - May 2026**
 - Analysis and handling of security alerts via **CrowdStrike** EDR.
 - Identification and remediation of security vulnerabilities using **Tanium**.
 - Development of scripts to optimize recurring tasks related to incident management.
- **SysAdmin, Network & DevOps Intern at Euris, Boulogne, France** **March 2025 - September 2025**
 - Deployment and security hardening of an infrastructure for a health data warehouse project.
 - Implementation of a log management tool (Graylog) to centralize activity logs.
 - Verification of the proper functioning and consistency of the information reported by the tool.
- **Software Engineer Intern at VIVERIS, Toulouse, France** **Mars 2024 - August 2024**
 - Design and deployment of a software solution for data collection and visualization generated by a simulated 5G network platform.
 -
- **Developer Intern at IRIT, Toulouse, France** **April 2023 - July 2023**
 - Development of an interface to trigger a service continuity procedure within the open-source 5G network simulator UERANSIM.

TECHNICAL SKILLS

- **Automation & Scripting** : Python, Bash.
- **Networking** : Protocols (TCP/IP, DNS, HTTP(S), SSL), Firewall, VLAN Segmentation, VPN (IPsec/SSL).
- **Systems** : Linux, Windows Server.
- **Patching & Vulnerability Management** : Nessus, Tanium.
- **SOC Tools** : EDR/XDR, SIEM (Splunk, Wazuh), IPS, Wireshark, VirusTotal, MITRE ATT&CK Framework.

ADDITIONAL INFORMATION

- **Languages** : French (Native), English (B2 Level).
- **Certifications** : Okta Certified Professional, Certified Stormshield Network Administrator (CSNA), Blue Team Level 1 (In progress).
- **Interests** : Basketball, CTF (Capture The Flag) Challenges, Cybersecurity Technology Watch.
